Hunt, of Cincinnati, the legislature adjourned today at 1:20 o'clock this morning. The Snyder franchise bill, which was introduced by Mayor Henry T. Hunt, of Cincinnati, the legislature adjourned today at 1:20 o'clock this morning. The Snyder franchise bill, which was introduced by Mayor Henry T. Hunt, of Cincinnati, the legislature adjourned today at 1:20 o'clock this morning.

House leaders refused to permit Mr. Mooney bill, requiring all state money to be paid into the state treasury only on the order of the auditor, to be brought to light during the closing hours, and Representative Jenkins, of Madison county, acting for the republican members, entered a protest upon the house records.

Among the bills finally passed yesterday which will go to Governor Cox today for the signature which I make them laws, were: The Frisbie judicial bill, the rke "blue sky" bill, the Warnes duated automobile tax bill, the 14 appropriation measure carry more than \$9,000,000 and the der bills authorizing the state to t Longview insane hospital from milton county at an annual ren- of approximately \$60,000. other bill, which will go to the ernor today, is the Cowan bill appropriating \$50,000 for the ad- inement of the proposed consti- tional amendment to be submit- by the legislature.

Members of both houses last ht attended the banquet tender- ing by Governor Cox. As a re- sult, neither house began its final sion until 11 o'clock. By a vote of 39 to 53 against, the house proceeded to disagree to conference report on the Snyder nchise bill, which included all ic utilities, excepting teleph- nes, telephones and pipe lines. representative Black of Cincinnati, asked for the new conference mitted, stating that the Cincin- i delegation had agreed on a promise bill, effecting only the cincinnati Traction Company. is finally passed, the Snyder bill ided only to public utilities which d 50-year franchises under the lgers act. ## Stewart Edward White is Going Into Heart of Africa

Tired of writing, though it has been his habit to write the kind of books which make money, Stewart Edward White is about to sail on another trip to Africa. Now he is outfitting an expedition at Santa Barbara, Calif. R. J. Cunningham, who has spent most of his life hunt- ing big and little game in Africa, will accompany the author, and the two will have no white companions on their journey, which is to be southwest of Lake Nyanza. They hope to push into other parts of Africa never before visited by white men.

Mr. White has traveled far. He knows lumberjacks, rivermen, hunters, trappers, and cowmen, having lived among them. Most of his books are about them, and breathe the spirit of the open air.

**STINGING  
SARCASTIC  
QUESTIONS**  
Drive Dr. Smith, Accused of  
His Wife's Murder, to  
Angry Retort.

**HISTORY OF PAST  
DUG UP BY STATE.**  
Physician Shows Deep Emo-  
tion on Mention of His  
Dead Wife's Name.

Springfield, O., April 30.—Dr. Arthur B. Smith again resumed the stand in his own behalf this morning in defense of his life against the charge of having poisoned his wife, Florence Caviler Smith. Knowing that the defendant would testify there was a mad rush at the early opening of court against which the doors of the court room had to be closed. Dr. Smith's voice was low but firm as he explained away many of the facts brought against him in suspicion by the state, but when he approached the matter of his wife's death and his grief his voice broke and tears fell. He said he owned no automobile at the particular time just after his wife's death when two state witnesses said they had seen in his car with Nabel Merchant and that at that time she was not in the city.

At 9:30 the state started on cross-examination. Harking back to his college days in the New York Homeopathic Institute and his work as an interne, he was asked as to trouble there which caused his resignation. This he denied. He admitted having been engaged to a nurse but said he had forgotten her name. Following this the assistant prosecutor started on a line of stinging sarcas- tic biting questions under which the defendant grew angry and answered with emphasis. The cross-examina- tion is of affirmative accusation while Dr. Smith makes some em- phatic denials.

**THREE BILLIONS  
FOR GOOD ROADS  
IS BOURNE'S PLAN.**  
Washington, April 29.—An ex- penditure of three billion dollars for good roads—one billion being for construction and two billion for maintenance, the investment extend- ing over a period of fifty years, was proposed in a plan submitted to a joint congressional committee of federal aid on the construction of roads by former Senator Bourne, of Idaho. Senator Bourne's plan pro- vides for federal school highway and bridge engineering from which training specialists in road work would be furnished for that work. The state would be required to deposit in the United States treas- ury fifty year four per cent bonds for the amount due them. The gov- ernment would then loan the states the par value thereof for road con- struction, the government raising its fund by the sale of 50 year non- taxable three per cent bonds.

## CALIFORNIA STANDS THE ACID TEST

Secretary of State Bryan is  
Highly Gratiified at His  
Reception.  
DELICATE PROBLEM  
PARTIALLY SOLVED  
State Senate Substitutes a  
Bill Modifying Orig-  
inal Measure.

Sacramento, Calif., April 30.—"I shall take back to Wash- ington to President Wilson a message of how California has treated his representative," said Secretary of State Bryan last night to members of the as- sembly and Governor Hiram W. Johnson, who were guests of Speaker Young at a dinner.

"What a delightful message it will be, too. I will tell him how the legislature and the governor greeted his envoy in the same spirit in which he was sent. I cannot help but feel gratified at my recognition."

Washington, April 30.—Probably not until the legislative status of the substitute alien land owning bill adopted by the California senate last night clarifies will it be possi- ble for the administration here to determine upon its next step. There is little expectation here that the as- sembly will reverse the action of the senate in view of the reported break- ing down of party lines in the legis- lature but it is believed that the de- lay may improve the chances for the introduction of some amendment on the lines of the Webb bill which pre- sumably would have received the ap- proval of the national government.

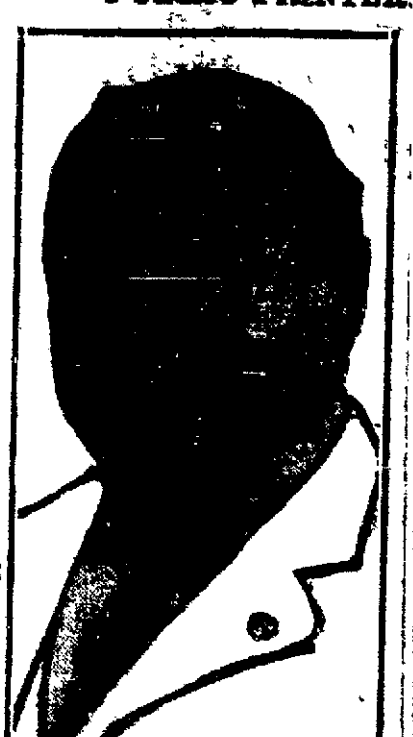

In explanation of the reluctance shown by Secretary Bryan to com- mit himself to the unqualified ap- proval of any specific measure, it is pointed out by officials here that the administration desires to be quite free of the charge of attempt- ing to control the proceedings of the legislature, confining itself to the ef- forts to limit the legislation within treaty rights and sound national policy. Also, it is said, that the state department should be left un- embarrassed by any commitment in advance of negotiations with the Japanese government which now seems certain to follow instead of the rather informal exchanges that have been taking place.

**INVESTIGATION OF  
WHITE PLAGUE CURE  
ORDERED BY BLUE**  
Washington, April 30.—Investi- gation of the alleged "tuberculosis cure" of Dr. Peter P. Duket, of Chi- cago, is to be undertaken by the United States public health service. Surgeon General Rupert Blue today issued orders detailing Dr. Julius O. Cobb, director of the Marine hospi- tal of Chicago, to inquire into the treatment and report.

The assignment was made at the urgent request of former Senator William Lorimer, of Illinois. "I have asked the governors of every state in the Union," said Mr. Lorimer today, "to send a repre- sentative to Chicago to watch the work of Dr. Duket and now that the government has taken action I think they all will do the same."

It developed today that since the health service has been investigating the alleged cure of Dr. Friederich F. Friedmann, Surgeon General Blue virtually has been inundated by cor- respondence from "discoverers" of similar cures. Most of them make appeals for assistance and recogni- tion.

## "JIMMY" LYNCH, WHO MAY BE NEXT PUBLIC PRINTER

President Wilson has intimated that "Jimmy" Lynch, head of the International Typographical Union, is to be named for public printer. If he does take the place there will be less talking in the Public Printing Office at Washington than ever be- fore in its history, for Lynch is known as the possessor of ability to keep his mouth shut so great that it is considered absolutely danger- ous.

He smiles and smiles and says nothing and looks nothing when he is on business concerning the interests of the 55,000 printers in the organization. It has been his habit to speak when the time came, and to such good effect that the Interna- tional Typographical Union has grown in fourteen years of his man- agement from an empty treasury and 27,000 members to an old-age pen- sion system and a full treasury, to say nothing of \$5,000,000 spent to win an eight-hour day.

**TRAGEDY AT MOVIE  
LEADS BOY TO TELL  
HOW PLAYMATE DIED**  
Harrison, N. J., April 30.—A mov- ing picture indirectly revealed to Mrs. Harry Siegel last night the death by drowning of her six-year- old son, Harry. The boy has been playing during the afternoon with William Boesel, a seven-year-old schoolmate. William was afraid to say anything about the drowning. While he was with his mother at a moving picture show last night a film showing boys trying to rescue a drowning mate was shown on the screen, William suddenly exclaim- ed: "That's just the way Harry Siegel died this afternoon."

Mrs. Boesel grasped William by the arm bolted out of the theatre and hurried to Mrs. Siegel's home where William tearfully recited the story of how Harry had fallen into the Passaic river while playing with him on a sand pile, and how he had failed to come up.

**DAYTON YALE MAN  
CATCHES THIEVES  
AT POINT OF PENCIL**  
New Haven, Conn., April 30.—Harry Wedland and Alexander Drummond, young men of Brooklyn, N. Y., captured last night by R. L. Davidson, of Dayton, O., Yale senior at the point of a silver pencil while ransacking his room in Vanderbilt hall on the Yale campus, were in the city court today charged with burglary. In the dim light of the room the burglars thought the pencil leveled at them by Davidson as he entered was a pistol. At police headquarters in addition to watches and a quantity of jewelry taken from the prisoners, Wedland was re- lieved of a loaded revolver.

The cases were continued until Saturday to give time for further inquiry by the police who say they have evidence tending to indicate that the men have operated at Har- vard and Brown universities.

**FRENCH AVIATOR  
STARTS FLIGHT FROM  
LYONS TO EDINBURGH**  
Lyons, France, April 30.—Julius Vedrines, the French aviator, started at 4:27 this morning on his mon- oplane on a flight to Edinburgh, Scot- land, a distance of approximately 930 miles in an air line to the north.

## NOBLEMAN ARRESTED FOR CRIME

Wealthy Landlord of Lith-  
uania Held for Murder  
Of a Prince.  
BODY OF LADISLAS  
FOUND IN THE PARK  
Prisoner Was Last Person  
Known to Have Been  
With the Victim.

Warsaw, Russian-Poland, April 30.—An extraordinary sensation was caused here today by the arrest of Baron John Bisping, one of the wealthiest landlords of Lithuania on the charge of murdering Prince Ladislas Fruecki, Lubocki, a relative by marriage whose body was found pierced by two bullet wounds on April 22 in a park adjoining his residence at Terezin near Warsaw.

Prince Ladislas was a well known Polish nobleman and president of the Automobile club of Warsaw. He left his house on April 22 with Baron Bisping for the railway station. When the prince did not re- turn a search was made and his body was found in the park with his car- riage and horse standing nearby.

The arrest of Baron Bisping fol- lowed on his evidence at the inquest which the police allege was contra- dictory in regard to the last mo- ments the two men spent together. Baron Bisping married Princess Radziwill, daughter of Count Zam- oyski and Princess Caroline de Bourbon. Prince Ladislas was a grandson of the last Polish minis- ter of finance.

**FARMER WHO MADE  
MURDEROUS ATTACK  
FREED UNDER BOND**  
Upper Sandusky, O., April 30.—John Brodman, wealthy farmer, who yesterday murderously assaulted Judge W. P. Rowland, opposite the court house, shooting a hole through his arm and splintering his collar- bone, was released at midnight af- ter waiving examination at the jail before Mayor Jones. John Titton and Frank Waller gave bond for \$5,000. Brodman refuses to ex- plain why he shot Rowland. The shooting took place shortly after Brodman had failed to have a suit against him dismissed.

**CARNEGIE TAKES  
AWFUL CHANCES  
OF STARVATION.**  
Pittsburg, Pa., April 30.—Word was received here last night that Andrew Carnegie has given \$150,000 to the Allegheny City Library the first library erected by Mr. Car- negie. Allegheny City is now a part of Pittsburgh. The money is to be used to build an addition when a young man Carnegie read the books owned by several private North Side residents and later start- ed a system of libraries extending over the United States.

**ENGLAND FINALLY SHOWS TEETH TO SUFFRAGETS**  
London, April 30.—The British home office today inaugurated its active campaign to put an end to suffragette militancy. The head- quarters of the Women's Social Pol- itical Union where many outrages are said to have been planned was occupied by the police and all the active leaders taken into custody.

Even "General" Mrs. Flora Drum- mond and Miss Annie Kenney, who were out on bail, were arrested on a fresh charge of conspiring with the members of the Pankhurst family to commit malicious damage.

## Cleveland Saloon Men Trick Baptist Brothers

John A. Chamberlain, of Cleve- land, lawyer and head of the Bap- tist Brotherhood, which is trying to close the saloons on Sunday, now has the fight of his life.

"I never knew before I got into this how bad a man wants a drink when he wants it, nor how anxious the saloon man is to sell it to him," remarked the leader of the Brother- hood, when he found the saloon men had tried a ruse of which he had not thought.

Mr. Chamberlain believed he had the lid fastened down on Sunday in the city which, till a short while ago, had a Golden Rule chief of no- lice. Suddenly he discovered that the saloon men had given all their customers keys to the places. The locksmiths of the city were work- ing night and day to turn them out. The printers, who had to get out fancy cards of "membership" also worked overtime.

The head of the Baptist Brother- hood does not believe the saloon men have found a successful method of keeping open on Sunday and he is digging into the law to find one to overcome them.

**POLITICAL  
PRISONERS**  
Confined in Ship During the  
Present Portugal Civil  
Strife  
GIVEN FREEDOM  
BY DARING RUSE  
Three Booms From Cannon  
Interpreted in Differ-  
ent Ways.

Lisbon, Portugal, April 30.—Revolutionaries by a daring plan, secured the release during the night of a number of prisoners arrested during Sunday's political distur- bances in the capital and confined on board the Portuguese cruiser Rep- ublica in the harbor.

Several boats filled with armed men dressed as sailors clambered on board the cruiser at 2 o'clock in the morning and demanded that the prisoners be handed over to them. At the same moment three shots were fired from the guns on the cruiser so that it appeared as though the affair was being carried out with the connivance of the officers and crew. The prisoners were then given up by their guard and landed before the naval authorities in the harbor understood what was going on. They had disappeared before any action could be taken against them.

## SCRATCHED AND KICKED POLICEMEN

Angry Female Strikers Use  
All the Weapons of  
Their Sex  
IN FUTILE PROTEST  
AGAINST AN ARREST  
Strike Leader, a Foreigner,  
Must Answer to Charge  
of Inciting Riot.

Auburn, N. Y., April 30.—Militia called out last night did not prevent rioting at the International Har- vester twine mill this morning. There were several pitched battles between police, soldiers, deputies and strikers.

Six strikers were arrested, three of them women. The latter fought with all the weapons of their sex and were taken to police headquar- ters, scratched, scratched and kicking. Among the men arrested was the strike leader, Gaetano Tognoli, the organizer of foreign unions here. He was arrested by the chief of police after he had made a socialist speech denouncing the police, the militia and the capitalists.

Sheriff Drake and Deputy Sheriff Teeter were attacked by fifty women as they were escorting girl em- ployees who wanted to go to work and after a steady growing battle they arrested the women who led the attack.

The break in the ranks of the strikers took place this morning and by 9 o'clock 150 had entered the mill and were busy at the looms.

**BETTER 'HECKLERS'  
THAN GUARDIANS  
OF PUBLIC TRUST**  
Washington, April 30.—When consideration of the Underwood bill was resumed at the opening of the house today, Republican Lead- er Mann and his lieutenants, par- ticularly Representative Payne, of New York, Moore, of Pennsylvania, Gardner, of Massachusetts, and Greene, of Iowa, resumed the "heckling" of the democrats who framed the measure. The republic- ans have given every indication of fighting the schedules all along the line, avoiding however, the useless delays that will be occasioned by de- manding record votes.

The democrats purpose to have night sessions continuously until the bill is voted upon and spend upon its way to the greater battle between the parties in the senate. Democratic Leader Underwood, guiding the measure through the house, is put- ting in direct charges as each sched- ular of the bill is read, the mem- ber of the committee who had charge of that schedule during the committee deliberations. Representative Mann, as leader of the opposition, and for- mer Chairman Payne, of the ways and means committee, have moved down to the front of the house on the republican side, fortified with the democratic bill and reports and other documents.

consideration of the earthenware and glassware schedule was resumed at the outset of today's session.

**FROG LEGS PROMISE  
TO BECOME FASHION  
IN UNITED STATES**  
Washington, April 30.—Frogs legs may become as ordinary a dish as bacon and eggs if the United States bureau of fisheries succeeds in the propagating scheme with which it has just started to experi- ment. At the bureau's hatchery at Edenton, near the western end of Albemarle Sound, North Carolina, efforts are being made this spring to discover how frogs may be propa- gated rapidly.

**TRUNK REGULATION  
STARTS WITH LIMIT  
OF 45 INCH LENGTH**  
Chicago, April 30.—Forty-five inches is the longest trunk that may be carried as free baggage on rail- roads in the United States after to- day. Also the new rules frown on the trunk with bulging side or bot- tom designed so that it must stand in a certain position so the gown and hats inside will travel right side up. It may be some time, however, before the "freak" trunks can be refused. Notice is required in order to reject them lawfully. Five pounds for each inch over forty-five inches is the rate of excess charges that will be levied under the new baggage rules.

Philadelphia, April 30.—Who is the fastest runner in the major leagues? Off hand you will say Ty Cobb or perhaps Bob Beamer, of Cincinnati, or Clyde Miller, of Washington, or Clyde Miller, of Washington. Well, you are wrong. All of them are wonderful runners, but Hans Lobert, of the Philadelphia Phillies, is the fastest runner in the major leagues. He has never been able to lead his league in base running. This year he is playing a fine game at last. Last season he hit .327.

## THE STAGE

## WHO WAS PAULINE CUSHMAN?

She was appearing in "Camille" at Woods' theatre in Louisville when she espied an opportunity in the banquet scene to come boldly forward and make a toast: "Here's to Jeff Davis and the Southern Confederacy. May the South always maintain her honor and her rights." The house was crowded and the audience of the thing almost precipitated a riot. White Southern sympathizers were delighted, the loyalists were in the ascendant, and denounced her action unreservedly. She was formally expelled from the company, and immediately went south to be lionized, as the doting victim of Yankee tyranny. This story will be reproduced at the Empire next Sunday.

Mighty Pitching Hand of Walter Johnson, Which Washington  
Fans Believe Will Lead Senators to American League Championship

Washington, April 30.—If the Senators, led by "Old Fox" Clark Griffith, win the American league pennant in the season of 1913 it will be due chiefly to the mighty pitching hand and arm of Walter Johnson, "the big Swede." Washington fans believe that Johnson is the greatest of baseball pitchers. Many throughout the country think so, too. Not until last season, when Griffith lifted the club from a tailender up to be a contender for the

pennant, could it really be seen how great he was. Last season he was the third in the record of American league pitchers with a percentage of .727. But he did more than that. He pitched forty-eight games, far above the average number engaged in by big league pitchers in these days. Had he been with a great club all the years he has spent with the losing Senators he would probably be

hailed as the greatest of pitchers by hundreds of thousands. Milan, the great outfielder, Ainsmith, catcher, and McBride, shortstop, are also going to help mightily in bringing the Senators to the front. Milan batted .306 last year, though in the first seven games of this season he had only .172. Both Ainsmith and McBride batted .226 last year. But in the first seven games this year the one has batted .318 and the other .308.

## TRINITY BRIEFS.

For the surprise last Sunday in the Sunday school the Golden Gate quartet rendered two pleasing selections. During the rendition of the second number, E. E. Wooley made a chalk drawing of a moonlight scene of a ship sailing on a bay. The picture was artistically produced and called forth many statements of delight and approval. The quartet was composed of Floyd Troup, first tenor, C. Rao, second tenor, M. Van Pelt, baritone, and Clyde Bowers, bass. The school heartily enjoyed the surprise. At the instance of Dr. M. B. Fuller, the members of Trinity made an all-member canvass after the plan of the men and religion forward movement. About 50 men, loyal church workers, made the canvass and to date the amount paid or subscribed approximates a little more than \$1,500 dollars. This amount will be increased somewhat by others yet to hear from. A report was made by those participating in an open meeting Sunday evening.

There is no case on record of a cough, cold or lagrippe developing into bronchitis, pneumonia or consumption after Foley's Honey and Tar Compound has been taken. The genuine is in a yellow package. Refuse substitutes. Enterprise Drug Store, M. M. Keltner, Prop.

## REAPING BENEFIT

From the Experience of Lima People.

We are fortunate indeed to be able to profit by the experience of our neighbors. The public utterances of Lima residents on the following subject will interest and benefit many of our readers. Read this statement. No better proof can be had. David Orwig, 913 N. Broadway, Lima, O., says: "For many years I suffered from kidney complaint, the pains across the small of my back being almost unbearable. I tried easily and if I sat down to rest it seemed as though my back would break on trying to arise. I was subject to dizziness, accompanied by blurring of my sight and often black specks floated before me. The kidney secretions were irregular in passage and this weakness was worse when I caught cold. Seeing Doan's Kidney Pills highly recommended, I began using them and the first few doses benefited me. I continued taking them until my back was free from pain and my kidneys normal. Doan's Kidney Pills have my highest endorsement, as they live up to all the claims made for them." MEMORY OF  
JEFFERSON  
'IN TEMPLE

Expressed Impressively in  
Beautiful Building of  
Stone Erected  
AT COST OF ABOUT  
HALF A MILLION  
Which Sum Represents Sum  
Remaining From Great  
Exposition.

St. Louis, Mo., April 30.—The Thomas Jefferson Memorial, which is to be dedicated here late this afternoon, forms, with the St. Louis Art Museum, the most striking legacy of the World's Fair of 1904.

The Memorial—a temple of stone—stands at the main entrance of the old World's Fair grounds in the western part of Forest Park, the city's largest playground, and at the foot of the hill on which stands the Fine Arts Gallery of the Exposition, the one permanent building of the great fair of nine years ago. The Jefferson Memorial has a frontage, including the central arch and the two wings, of 339 feet. The arch is about 70 feet deep, and the great dome that surmounts it is 65 feet deep. Within the arch is a colossal statue of Thomas Jefferson, carved from Italian marble, the work of Karl Bitter, who was director of sculpture at the Louisiana Purchase Exposition. Leading to the Jefferson statue, which is under the open dome, is a facade of six mammoth pillars. In one wing of the building is Jefferson Hall, a room in which conventions or meetings of patriotic societies may be held. Three rooms around Jefferson Hall are to be converted into a museum for the records and relics of the Louisiana

Purchase Exposition. In the opposite wing will be housed the collection of the Missouri Historical Society. In this collection are archaeological specimens from all parts of the original Louisiana purchase territory, an accumulation of forty years, the priceless library of the historical society which contains thousands of manuscripts, letters and diaries illuminating the history of the trans-Mississippi country; an Indian collection of more than 30,000 pieces; and oil paintings of the governors of Missouri and of many other persons prominent in the history of the Louisiana territory. Among the relics is a sundial from the Jefferson home at Monticello. The building cost approximately \$450,000. This sum came from three sources—the federal government, the Louisiana Purchase Exposition Company, and the City of St. Louis. The \$450,000 represents the balance remaining from the exposition to which congress and the city each appropriated five million dollars. The original appropriation provided that after all the exposition affairs had been liquidated, as much of the surplus should revert to the government as reverted to the exposition company. A similar provision was made by the City of St. Louis in the exposition bond issue. In lieu of the reversion of the surplus to the original parties to the exposition, congress, the directorate and the city agreed to use the fund for the building of a lasting memorial to Thomas Jefferson. The city gave the site, the building marks the completion of the restoration of Forest Park on the part of the exposition company—work in which \$2,000,000 has been expended. The Memorial building, last winter, formally was turned over to the city and it now is under city control.

The surviving directors of the World's Fair have been organized into a board of trustees to look after the relics of the exposition. They also have been made members of the Missouri Historical society, which will continue to look after its own collection. The care of the building will be under the direction of the city park commissioner.

IMPLEMENTS OF WAR  
BELONGING TO REDS  
WERE LEFT BEHIND

Chicago, April 30.—When the Cincinnati National league team arrived here Tuesday it was discovered that the trunks containing bats, gloves and uniforms were missing, probably through some mistake made upon their departure from St. Louis last night. This was not a complimentary exhibition meant to assuage the humiliation of the Cubs when they appeared at Cincinnati recently minus their bats. Manager Tinker kept telephone wires hot trying to arrange to borrow the traveling uniforms of the Cubs, but finally President Comiskey of the White Sox was reached, and in the absence of his club on the road he unearthed an odd lot of uniforms, bats, mitts and other paraphernalia and Tinker led his athletes out to the West Side park.

Dayton Authorities Hasten

Truth to Story.

Chicago, April 30.—One hundred and sixty-seven penniless men who had been working at Dayton cleaning up wreckage left by the recent flood, and who said they had been driven from the city as "undesirables" without receiving wages from them from the city of Dayton, arrived here today.

They explained their plight at the city street police station. Officials there said the matter before the United States court at Dayton, Robert Abile, one of the number of workmen who had been driven from the city, and he left his wife and family to get work at Dayton.

"I was hired by the city at \$7 a week to work on the streets," said one. "I worked with hundreds of others until 3 o'clock yesterday afternoon when some soldiers herded us aboard a train. One of the officers told us that their orders were to get rid of undesirables and we came under that heading."

## GRAFTER QUARTET LOCKED TOGETHER FROM COURT TO JAIL

New York, April 30.—Former Police Inspectors Sweeney, Murtha, Hussey and Thompson, on trial on indictment charging conspiracy to obstruct justice, will have to be locked up every night of their trial. The appellate division of the state court so decided today, dismissing a writ of habeas corpus issued in their behalf last night.

The four inspectors were taken from the Tombs prison to the court room, handcuffed together, in taxicabs. For a time it looked as if they would have to be marched through the streets, as there was no vehicle obtainable to transport them. The prisoners sent an urgent appeal to headquarters for a patrol wagon and when this request was denied, they were allowed to procure taxicabs. They cheerfully paid their own fare and that of their keepers. After the appellate division had dismissed the habeas corpus writ, the trial was resumed in the supreme court.

Thomas W. Walsh, the deposed police captain and self-confessed grafter whose testimony already has sent two members of the force to prison, was the first witness. Not long ago the grand jurors hurried to Walsh's bedside to get what was believed to be the last revelations of a dying man, and his appearance in court today was a surprise.

Walsh said that the graft collections from protected saloons and dance halls in his precinct averaged \$400 a month. Forty per cent of this, he declared, was turned over to Sweeney, Murtha, Hussey and Thompson, who were inspectors between 1907 and 1912. The witness said that he kept 40 per cent of the money for himself and gave the remaining 20 per cent to the

**OSLER AS A LIFE PILOT.**  
Sir William Osler, now 64 years  
old, an I.L.D. by the grace of a  
half a dozen of the world's greatest  
universities, Regius Professor of  
Medicine at Oxford, is one of the  
few men whose names have become  
verbs. "To Oslerize" means "to  
simplify, painlessly," to eliminate  
what has lost its serviceability. At  
one stage of his development, Dr.  
Osler had a notion that all men  
might as well be out of the world  
after they reached the age of 40.  
Like George Bernard Shaw's plan to  
simplify all men earning less  
than \$15,000 a year, this notion of  
the distinguished scientist was never  
forced into position as more than an  
academic issue.

But Sir William seems to have se-  
lected himself as a committee of  
one to disprove his own theory. Af-  
ter almost a quarter of a century of  
existence beyond the alleged period  
of utility, he is demonstrating his  
value as a life pilot. To a Yale au-  
dience he says:  
"Forget the past. Forget the fu-  
ture. . . . Touch a button that  
will shut off the past, and another  
that will shut off the future, and  
you will have a vaccine that will in-  
sure you against all morbid thought.  
. . . Live for the present. The  
control of the mind as a working  
machine is the end of all education.  
Take care of yourselves, that you  
may have the greater usefulness.  
Never hurry."  
Let us congratulate Dr. Osler.  
There is more joy in heaven over  
one scientist who repents than over  
ninety and nine who never see the  
need of repentance. As a life-pilot,  
Oxford's Regius professor points the  
way to a hundred years of useful-  
ness. Instead of the forty which he  
allowed when he made the verb "to  
Oslerize" a sort of compass for the  
death pilots. It's a safe prophecy  
that the sunset of his life will be  
ruddy with the promise of a cheer-  
ful morrow where the clouds can  
never come.—Brooklyn Eagle.

**THE MORGAN WILL.**  
It is noticeable that Mr. Morgan  
made no attempt to perpetuate his  
fortune. He left it outright to his  
son, trusting evidently to the train-  
ing he had given it, and as the  
best assurance possible in this  
world that it would be wisely used.  
After all, trusteeships and entails  
and all the other artificial means  
man has invented to continue wealth  
in the direction of his owner wishes  
to go are comparatively futile  
agencies. In the end, they must de-  
pend for their efficacy upon the per-  
sonal element always, and it is more  
likely that a son, inheriting ten-  
dencies of the parent in all the fibre  
of his being and modeled by that  
parent to his wishes during the  
plastic period of life's growing time,  
will more closely approach the pur-  
poses of a dying millionaire than  
any construction of cut-and-dried  
rules and paper and ink which the  
mind can invent as a substitute.  
With the bequests the general  
public has no concern, however  
natural some curiosity may be, ex-  
cept insofar as the will intimates

that the public is to be a direct  
beneficiary, as in the matter of the  
famous art treasures. Whatever  
our vice presidential mentor is try-  
ing to say on the subject, most of  
us still believe that a man has a  
right to do as he pleases with what  
he has gathered during his life-  
time, and the clauses that give to  
individuals various portions of the  
Morgan estate affect none but the  
fortunate beneficiaries.  
In some sense, however, the po-  
sition of the residuary legatee is in  
the nature of a quasi-trust, for the  
great fortune and the greater op-  
portunity for good or evil that goes  
with it in the leadership of the Mor-  
gan firm essentially involve public  
relations of wide importance.—  
Tribune Free Press.

**KING MIKITA'S FIRM STAND.**

We will not give up Skutari.  
In those words, N. Montenegro, in  
the principal Montenegrin, during at  
the Paris conference, summed up  
the situation. Was the Skutari  
bluffing? That is the question  
which will naturally occur to one  
reading his words. Certainly  
there has been nothing like it since  
David Goliath in the valley of  
Elah. On the one side there is the  
might of Europe, her ships, her  
armies and her gold, and on the  
other the tiny poverty-stricken Black  
Mountain. Yet as Austria talks of  
mobilizing 10,000 men a suspicion  
boats through curious, half-startled,  
uneasy Europe that it may, after  
all, not be the Black Mountain who  
is bluffing.  
In the whole story of this extra-  
ordinary war Montenegro has never  
entered a threat she has not lived  
up to. She was the first to launch  
herself against the Turks, and she  
has been the last to sheathe the  
sword. She has declared in the most  
open manner through the mouth of  
her kips that she would capture  
Skutari or she would go under and  
now that Skutari is hers she de-  
clares just as unflinchingly that if  
Austria is determined to reach  
Skutari she will have to do so over  
the bodies of the male population of  
the country. She has, unflinchingly  
upon her frontiers. She never fal-  
tered when the Ironclads steamed up  
her coasts and made their night cap-  
ture of the King's little yacht. The  
allied admirals must have heard  
the thunder of the guns and seen  
the red flashes in the darkness the  
night Taraboch fell. In the morning  
they had the King's yacht but the  
king had Skutari.

Political Europe is contemplating  
one of her periodical crimes. The  
idea that Austria is concerned for  
the autonomy of Albania deceives  
no one. Austria desires a plea  
in that country which is more  
concisely than correctly described as  
the Balkans. For this Montenegro  
is to be deprived of what she has  
fought for and won. Just as she was  
a champion and dare Austria ob-  
literate the Black Mountain? And  
dare a Slav Czar let her?

Nobody ignores that the Ballplatz  
has no more scruples than the  
letters in the word "scoundrel". And  
though every one knows Russia has  
given her consent that was before  
the midnight guns were booming in  
Cettigne and the banks, and mer-  
chants were singing and dancing in  
the streets of Belgrade, it will be  
strange if King Mikita does not  
keep Skutari or else pay for  
something equally valuable.

The wayward girl of the juve-  
nile court needs getting occasionally,  
just as you and I do. And the fact  
that she does not get this from her  
parents is the beginning of her un-  
doing. It is for such as these that  
we need a girls' home in Toledo.  
Thus declared Miss Sara Kauf-  
man, of the juvenile court, before  
the Toledo Council of Women.  
"These girls want—may, need, a  
good time and it is our duty, not  
to preach but to understandingly  
supply the 'good time', to supply  
opportunities for dancing and for  
meeting the other sex under refining  
influences."  
Miss Kaufman believes that the  
proposed girls' home should take the  
form of a training school, where  
wayward girls would be learning  
useful, employments, and, at the  
same time, be enjoying home in-  
fluences.

**Home Are Opened.**

Two have many girls, who are  
ever made actual wards of the  
court and are proud of the fact  
that they are more a case out of  
the juvenile court, she said.  
The juvenile court is now keep-  
ing in touch with some 400 girls,  
placed in various private homes  
throughout the city. The women of  
Toledo are one about taking girls  
to their homes.  
Such an arrangement is not  
possible in all cases. There are  
some whom conscientiously I can-  
not place in private families. What  
to do with them?  
After months in a girls' train-  
ing school, order helpful and refi-  
ned influences would make them  
valuable members of society.  
"Many of these young girls,"  
Miss Kaufman stated, "do not even  
know how to sew on buttons or  
wash dishes. A training school,  
which makes them useful and desir-  
able in their homes."  
Need Is Great.

**NEW YORK SOCIETY LIFE EX-  
POSED.**

The Royal theatre management  
presents today and tomorrow a  
motion picture featuring New York  
society life and underworld which  
introduces the famous Bowery Char-  
acter "Chuck Connors." A power-  
ful picture portraying the bright  
lights and dark shadows of the great  
city, giving you Jack Rose's version  
of New York's Underworld. A pic-  
ture realistic and true to life, free  
from any objectionable features and  
one that is an uplift to humanity.  
Many points of interest connected  
with New York's mysteries are  
shown upon the screen. A story of  
a son of well-to-do parents adds to  
the already highly interesting fea-  
ture. While Harold Blake is slum-  
ming with his aristocratic friends he  
hears a cry. He knocks  
down a gangster beating a woman  
and for his pains he and his friends  
are set upon by the gang. A night  
in jail and his father comes to his  
assistance. Harold, on account of  
repeated debaucheries is disowned  
by his parents. Going from bad to  
worse he decides to end it all. He  
is stopped by another set of gan-  
sters, and becomes "Spike Blake."  
His startling adventures are then  
shown. The manner in which he  
was rejuvenated is of especial pa-  
thos and his reconciliation to his pa-  
rents and his girl are most pleasing.  
Don't fail to see this.

**WM. D. HAYWOOD  
ARRAIGNED TODAY  
FOR INCITING RIOT.**

Paterson, N. J., April 30.—Scores  
of deputy sheriffs and policemen  
guarDED the court of special sessions  
today for the arraignment of Wil-  
liam D. Haywood, Elizabeth Gurley  
Flynn, Carlo Tresca, Patrick Quin-  
lan and Adolph Lessig, Industrial  
Workers of the World leaders, in-  
dicted for inciting the Paterson silk  
mill strikers to riot.  
Forty or more other members of  
the organization arrested at various  
times in the course of the strike  
now nearly ten weeks old, were also  
awaiting arraignment to plead to  
charges of unlawful assemblage.  
Thousands of idle strikers gathered  
about the court house for the pro-  
ceedings.

**When is a Newsboy?**

A girl who sells newspapers a  
"newsboy." This question has di-  
vided the Paterson Newsboys' as-  
sociation since the silk workers' strike  
threw several thousand girls out of  
work many of them have taken to  
selling papers on the streets. Now  
the girls wish to join the newsboys'  
association. Most of the members  
are willing to admit them, but are  
undecided whether the organization  
with girls in it will have to change  
its name. Those who favor letting  
the name stand point out that the  
woman who presides at a suffragist  
meeting is called the "chairman."  
Judge Francis Scott was asked today  
to address the association tomorrow  
night and decide the question.

**The Fatness of Health.**  
Samose Fills Out the Curves and  
Makes Thin People Fat.

If you are thin, your health is not  
what it should be. If you are losing  
weight steadily there is something  
wrong that should be attended to at  
once. If you cannot be healthy and  
strong if you are thin.  
Perfect health and good, solid  
beautiful flesh can only come  
through the use of Samose, the re-  
markable flesh-forming food.  
Samose is not a drug or a stimu-  
lant; it is a scientific flesh-forming  
food that restores thin people to a  
normal condition of good healthy  
flesh.  
These statements are confirmed  
by the Melville Drug Co. offer to re-  
fund the money to anyone buying  
and using Samose who does not  
gain in weight as promised. The  
Melville is all there. The thin, and  
sallow and our Samose at Drug  
stores, and with the knowledge  
that if it is not successful it will not  
absolutely nothing.

**THE STAGE**

Al. G. Field and his company of  
fun-makers who appear at the Fa-  
urol tonight, paraded the principal  
streets at noon. The veteran min-  
strel rode at the lead of the proces-  
sion and will appear at the Fauroi  
tonight with his company. His busi-  
ness interests other than his min-  
strel organization keep him at head-  
quarters, Columbus, a greater part  
of the time but he arranged matters  
that he might be with his company  
while in this section.  
The Gold Band, one of the fea-  
tures of this season's production, did  
much to enliven the occasion, dis-  
cussing rag time and classical mu-  
sic. The Gold Band will offer  
another free concert prior to the  
performance of the minstrels to-  
night.

Field this season has the fra-  
giest company ever enrolled under his  
banner and many familiar faces  
were noted. Bert Swor is the lead-  
er of the comedy contingent and is  
ably assisted by John Healy, Gov.  
Powers, Charles Reinhart and John  
Dove, all of whom have appeared  
here with Field before.

The singing portion of the orga-  
nization is under the direction of  
Paul Lalonde who is rounding up  
his nineteenth year as a member of  
the Field forces. Among the sol-  
ists are Jack Richards, a power-  
ful tenor; Walter Sherwood, a well-  
known lyric tenor; John Craw-  
ford, a basso of note; and Herber  
Willison, the wonderful male so-  
prano. Charles Reinhart, in black  
face, does a yodel song in the first  
part that is a decided innovation.  
The soloists are assisted by a large  
chorus while the dancing diver-  
sions are under the direction of  
Johnny Dove.

Al. G. Field is now in the twenty-  
seventh year of his career as man-  
ager of the company he heads and  
bids fair to continue for many years.  
His organization is the oldest min-  
strel company traveling and is a  
wonderful trademark in the amuse-  
ment world.

**Rheumatic Blood  
is Whole Story**

Schistos, Lumbago, and  
Dreaded Arterial  
Rheumatism  
Cured.  
You Will Feel Like an Acrobat After  
Using S. S. S.

There is a host of pills, powders,  
tablets and what-not for rheumatism,  
but they all lack the first essential to  
being a natural medicine. To begin  
with, rheumatism is simply a name  
given to designate a variety of pains  
and can only be reached by irri-  
gating the entire blood supply with a  
naturally assimilative antidote. True,  
the pains may be eased with nar-  
cotics or the acids may be neutralized  
for the time being. But such methods  
merely temporize and do not even lead  
to a cure. There is but one standard  
rheumatism remedy, and is sold in all  
drug stores under the name of S. S. S.  
It contains only pure vegetable  
elements and is absolutely free of mer-  
cury, iodine of potash or arsenic, and  
has proved a wonder for every form  
of rheumatism.

The recoveries of all types of rheu-  
matism by the use of S. S. S. is a fine  
tribute to the natural efficacy of this  
remarkable medicine. It is assimila-  
ted just as naturally, just as speci-  
fically, and just as well ordered as the  
most acceptable, most palatable and  
most readily digested food. Do not  
fail to get a bottle of S. S. S. to-day.  
You will be astonished at the results.  
If your rheumatism is of such a nature  
that you would like to consult a great  
specialist confidentially, write to The  
Medical Dept., The Swift Specific Co.,

**SHIVERING BRIDE  
WAITS PATIENTLY  
FOR HER POLICEMAN**

New York, April 30.—From mid-  
night until 8 o'clock this morning  
a bride sat shivering in the steps of  
Grant's tomb, in speaking distance  
of her husband, but forbidden to ex-  
change even the tenderest bits of  
honeymoon conversation. She was  
the wife of Lewis Baumann, a pa-  
trolman on fixed post, to whom she  
was married at 9 o'clock last night.  
Baumann had expected to be relieved  
from duty, but an unromantic po-  
lice captain ordered him to his post  
as usual. So his bride decided to  
keep the watch with him.  
Under the rules policemen on fix-  
ed posts are forbidden to talk to  
citizens except in the discharge of  
their duty. The pair left arm in  
arm this morning sharp at 4:45.

**Garden Sage Darkens Gray Hair**  
So Naturally Nobody Can Tell

Restores its Lustre, Prevents Scalp  
Itching, Dandruff and Falling  
Hair.

That beautiful, even shade of  
dark, glossy hair can only be had by  
brewing a mixture of Sage Tea and  
Sulphur. While it is a messy, tedious  
task it will rouse those whose hair  
is turning gray, faded and  
streaked.

Your hair is "our chape", it  
makes or mars the face. When it  
fades, turns gray and looks dry,  
wispy and scraggly just an applica-  
tion or two of Sage and Sulphur en-  
hances its appearance a hundred  
fold.

Don't bother to prepare the tonic;  
you can get from any drug store a  
50 cent bottle of "Wyeth's Sage and  
Sulphur Hair Remedy," ready to  
use. This can always be depended  
upon to bring back the natural color  
and lustre of your hair and is the  
best thing known to remove dan-  
druft, stop scalp itching and falling  
hair.

Everybody chooses "Wyeth's Sage  
and Sulphur" because it darkens so  
naturally and evenly that nobody  
can tell it has been applied. You  
simply dampen a sponge or soft  
brush and draw this through the  
hair, taking one small strand at a  
time which requires but a few mo-  
ments. Do this at night and by  
morning the gray hair has disap-  
peared and after another applica-  
tion it becomes beautifully dark and  
appears glossy, lustrous and  
abundant. It certainly helps folks  
look years younger and twice as at-  
tractive, says a well-known down-  
town druggist, R. F. Vorkamp.

## WERE WEDDED IN MONROE

Harry Oroy and Miss Daisy  
Wyatt Married in Gretna  
Green, Monday.

ACCORDING TO DIS-  
PATCH FROM THERE

At Bride's Home Claim is  
Made They Married  
Long Ago.

A dispatch from Monroe, Mich., to the Toledo News-Bee of Tuesday evening, reads as follows: "Harry G. Oroy, 23, reporter, and Daisy B. Wyatt, 22, telephone operator, both of Lima, were married here Monday."

Inquiry at the home of the bride's parents, Mr. and Mrs. William Wyatt, of 232 west Vine street, elicited the information the couple "had been married long ago and were living in Toledo." This, however, is in direct opposition to the information carried in the dispatch.

However, it is known that Miss Wyatt, who was an operator employed at the office of the Bell Telephone company, left Lima several weeks ago. Oroy is said to be working upon a newspaper in Toledo. He is the son of Mr. and Mrs. E. B. Oroy and was for some time engaged on the editorial staff of a local newspaper. Oroy is a member of the famous Wayfarers' quartette and has a splendid voice.

### CRIDER FUNERAL

The funeral services over the remains of the late I. D. Crider were held this afternoon. The funeral cortege left the late residence on west North street at 1:30 o'clock, and proceeded to the Radical United Brethren church at Elida. There the services were held at 2:30, and were conducted by the Rev. Shearer, assisted by the Rev. Richards, pastor of the St. Paul's Lutheran church of this city. The body was carried from the home, and in and out of the church by six of the old and true friends of the deceased, namely A. D. Miller, Martin Phillips, C. A. Graham, Dave Bowers, Bates Bowersock and Minor Atmurt. Interment was made in the Greenwood cemetery.

## STINGING SARCASTIC QUESTIONS

(Continued from 1st page, 2nd col.)

Prosecuting Attorney Laybourne asked Dr. Smith about the death of his aunt, Mrs. Anziah Winger, suddenly, in his home three or four years ago, but the court ruled the question out. It was then shown that Mrs. Winger had made a present of part of the purchase for his second automobile. Asked if he had not used a part of his first wife's inheritance, promising to pay it back out of what he expected to get from the Winger estate, he said "positively no, I never thought of such a thing." The state then entered on a line of questioning as to Dr. Smith's connections with Mable Merchant, his present wife, both before and after the death of his first wife. He admitted that Miss Merchant had been in their home as a nurse for his mother and that later before the death of Mrs. Smith he had treated her professionally and at times had called her up over the telephone in reference to her health. He stated that he was not engaged to Mabel Merchant when she went to Boston April 15, less than a month after the death of his first wife, but that they corresponded after that date, he sent her a box of flowers on one occasion, and that they became engaged in August when he gave her a diamond ring, which he insisted he had owned for five years, and that they were married in October. He admitted that Miss Merchant had his picture, which she had gotten at the Smith home in February from his first wife, but that he had never given her a photograph or present until after they became engaged. He absolutely and flatly denied all implications of the state's attorney that he and Miss Merchant had been intimate before August, after the death of his wife, and denied knowledge that she had told friends at Newton Highlands, Boston, in April that she was going to marry a wealthy doctor. He denied that Raymond Durbin, Mabel Merchant's cousin, had told him he saw her engagement ring in June, and that Mabel was then making wedding clothes. He also denied that he had told Mable Merchant at that time to fit herself to occupy the social place the Smiths held in Springfield and said he always thought her equal to any position. He said his mother told him she thought the engagement a little early after Florence's death, but she loved Miss Merchant like a daughter and wanted him to be settled. He denied any special dislike to the members of the Caviler family who lived with him.

The defense has objected to every question on the ground that the prosecutor is simply trying to get before the jury things he could not place in direct evidence and sarcastically asked the court if the state's attorney could not be sworn as a witness. Dr. Smith is bearing up well under the ordeal which the state expects to keep up all day. The defense this morning called six more witnesses.

## LABOR FEDERATION ACCUSES GOVERNOR OF BREAKING FAITH

Columbus, O., April 30.—The Ohio Federation of Labor, through its executive committee, published a statement to the people of the state today to the effect he the organization held that "the democratic party has failed to carry out its platform pledge to the people of Ohio, and that Governor Cox has broken faith with labor."

"We attribute the defeat of the Vollmer shorter workday bill to the opposition of Governor Cox," says the statement. "The governor did not carry out this pledge made to Mr. Vollmer, that he would aid in the passage of the nine hour bill."

The claim of the politicians of the eightieth general assembly that that body enacted more progressive labor legislation than any other Ohio legislature is not borne out by the record, and the Ohio State Federation is prepared to prove that the seventy-ninth general assembly far outranked the one which has just adjourned for progressive legislation.

Governor Cox was busy throughout the morning conferring with legislators who remained in the city and with others and at the executive office it was stated that the governor did not contemplate making any reply to the criticism by the labor leaders.

## FORMER PLAYMATES OF MORDECAI BROWN ARE INHOSPITABLE

Chicago, April 30.—The uniforms, bats, mitts, shoes and other paraphernalia in the absence of which the Cincinnati Reds lost a rather grotesque game to the Cubs yesterday arrived here today. Meanwhile the resentment of the visiting players against President Murphy of the Cubs was wearing off, although Mordecai Brown, former Cub and present Red declared that Murphy's refusal to lend accommodations to the visitors was not "clubby"—nor was it even "syndicatey."

The real reason underlying Murphy's refusal is said to have been the superstitious of his players on a great number of subjects including the loaning of tools of the game. "Doc" Semmens, who signed with Tinker after he had resigned from the club by means of a swing to Manager Evers' jaw is held responsible for the loss of the baggage. He was even a handful of claim checks at St. Louis and mistook them for checks to Chicago.

## ANNUAL NIGHTMARE OF BASEBALL WORLD HAS GONE ON THE JOB

Chicago, April 30.—The national commission, "supreme court of baseball," at its meeting here today may take cognizance of the proposed congressional investigation of the alleged "baseball trust," it was reported. A statement insisting on the guiltiness of organized ball and declaring necessary to its preservation the national agreement and the reserve clause in players' contracts, it was said, probably would form the notice of the investigation asked by Congressman Gallagher would be taken. The commission's session prom-

ised to be a long one. In addition to consideration of the Cobb holdout case, in which the eligibility of the Detroit star was to be passed upon, there were numerous other problems some of them from minor leagues, to be taken up.

**LIMA HAS HOPES.**  
Columbus, O., April 30.—According to information received at the state headquarters of the Ohio Sunday school association, either Lima or East Liverpool will land the deferred state convention.

It was to have been held in Portsmouth during the first week in June, but flood conditions there necessitated a change and a postponement to the first week in October. General Secretary O. W. Shinn, of Columbus, will go to East Liverpool, Friday, to discuss convention arrangements, and President W. A. Eudaly, of Middletown, will take up a similar proposition with a committee at Lima on Saturday. At the convention brings several hundred visitors, and will likely be larger than ever this year, both cities are anxious to land it.

## MAYOR HUNT MAKES STARTLING CHARGE AGAINST SOLONS

Cincinnati, O., April 30.—Mayor Hunt charged today that corporations had obtained control of the house of representatives last night and were instrumental in having the Snyder traction bill go through in amended form. He said he would make a demand upon Governor Cox and Prosecuting Attorney Turner of Franklin county, to investigate the matter.

"It certainly was a profound surprise to me to see the way in which the dissatisfied corporations ran the house in the last few hours of its session," said the mayor. "After having previously passed the bill, the house retraced its steps, after receiving the assurances from representatives of corporations that the bill was inimical to their interests, and riddled the measure. The manner in which this was done, I believe, calls for an investigation."

Folk dances, gymnastic exercises, apparatus work and the May-pole will be among the fancy drills, put on this evening by the clubs making up the Business Woman's gymnasium teams, at Wheeler hall. Miss Lillian Johnston, the instructor, will be in charge. There will also be readings, vocal and instrumental music, and so forth. A small admission fee will be charged.

Four classes are included, the business girls, the high school girls and the two grammar grade clubs. When Miss Johnston has finished her work, in this respect, the Camp-fire girls will begin their season. The public will be cordially welcomed in Wheeler hall this evening.

REGIME OF HUERTA  
NEARING A CLOSE  
DECLARES LAWYER

Chicago, April 30.—"The Huerta government in Mexico probably will be overthrown within two weeks," said Robert J. Kerr, an attorney, who recently came from Mexico in an address before the Rotary club.

"The situation there is far more serious than Americans realize. Americans are forced to flee from Mexico because the American flag is not as much respected there as are the flags of other countries, and Americans if they remain, do not know whether they will be able to get damages for their ruined property."

TRINITY CHURCH AID  
SCORES HEAVILY

Little Sketch Put On Last Evening a Genuine Delight to All Who Listened to It.

Members of the Ladies' Aid society of Trinity Methodist Episcopal church scored heavily last night in the presentation of "The Old Maids' Convention" in the social room of the church. The affair was such a success that it will be repeated this evening at the church.

The society invested the original piece with much new material and in the capable hands of the members of the society, the presentation lacked some of the old, uninteresting features. From start to finish, it was a great big lot of laughs and comic situations.

About 40 ladies of the church took part. The program was divided into two parts, the first being songs, recitations, readings and addresses, by the "old maids' costume and second, in the rejuvenation act.

It was one of the brightest bits of comedy put on by a local church society in a long time. The program tonight will begin at 8 o'clock and no one should miss the presentation, when a splendid evening may be enjoyed.

A picture, the architect's drawing of the new Jewish Synagogue, soon to be erected in this city, was today placed on exhibition in the window of the Michael clothing store on north Main street. This building will be one of the most worthy additions to the Lima buildings, and while not ostentatious it will be complete and most attractive. It will be built on the lot on west Market street, a little west of Collett street, a lot now owned by the Jewish congregation. The building is of Jewish architectural form, is surmounted with a dome, and will have front and side entrances. Its completeness will add another monument to religion in Lima.

INSURANCE AGENTS  
CEASE ACTIVITIES  
FOR THE PRESENT

St. Louis, Mo., April 30.—Agents of most of the foreign insurance companies in Missouri expected tonight to cease the work of writing new policies until the insurance situation clarifies. Fifteen of sixteen foreign companies, besides several domestic ones, have signified their intention of continuing to write Missouri business, but most of the companies have given no sign of receding from their declared intention of refusing new business after today. Business interests are protected temporarily by the new policies that were taken out in the last two weeks, many of which overlap policies already in force.

After "Professor" Taft was well settled in his professorship at Yale he permitted the photographers to step in to show the public how an ex-president looks in such an office. The ex-president is a busy and contented man, and he could not have chosen anything that would have made him seem happier in retirement. He has a cosy and bright office in New Haven, and he has become very popular with his students.

## LIMA SCHOOL OF AVIATION

Gives First Demonstration  
Flight at Aviation  
Field Today.

FIRST OF SERIES  
OF FLIGHTS DAILY

Drew, of the Aero Club of  
Illinois, Ascends in a Ma-  
chine of Wright Model.

In a series of beautifully maneuvered flights Andrew Drew, of Chicago, representative of the Aero club of Illinois, and the Aero clubs of the United States, this afternoon tried out the Wright training airplane of the Shaffer-Branan school, preparatory to granting the local school a franchise.

The flights this afternoon were for the purpose of testing out the aviation field and the machine owned by the local school.

Owing to the dampness of the field a little difficulty was experienced in getting the machine from the ground. At the second attempt, however, Drew skimmed across the field, lifted the planes and rose to a high altitude above the heads of the small crowd gathered to witness the event.

The flights made today at the field were the first of a series of daily flights to be made while the weather permits. The plane is a Wright model, fitted with a double set of levers which are used by both the pupil and instructor, eliminating a great deal of the danger the pupil might incur in flying alone.

Mr. Drew who has participated in practically every recent aviation event of any note will remain here for the next few days testing out the machine and the grounds. His report to the Illinois Aero club and to the Aero clubs of the United States will be the means of the granting of the charter to the local club. He expressed himself as well pleased with the arrangements this afternoon.

PRINCE WILLIAM  
CHIP OF OLD BLOCK  
IN MILITANT IDEAS

Berlin, April 30.—Crown Prince Frederick William in writing the preface to a book, "Germany in Arms" published today of which he is reputed to be the author exhibits himself, the future German emperor, as an unbeliever in the possibility of ever abolishing war. He declares that diplomacy may delay and occasionally avert conflicts but "the sword will remain the final and decisive factor until the world's end."

"Only with the support of our good sword can we maintain that place in the situation which is due to us but which is not willingly accorded to us."

The author points out Germany's unfortunate geographical position and warns his countrymen that the German army and navy must be kept continually at the highest point of efficiency.

## MRS. BELMONT HAS FAILED

To Revolutionize Things  
Throughout British  
Empire.

'BOYCOTT' ON TEA  
NOT KEENLY FELT

Quotations on Beverage Did  
Not Show Appreciable  
Variance.

London, April 30. Mrs. O. R. P. Belmont's mission in England hardly can be called a successful one as she might have wished when her declaration to boycott tea and other things had been in mind.

After sleeping in an English hotel, in a room decorated especially for her by an English firm of decorators, Mrs. Belmont arose at 10 o'clock, being called by an English maid. After her toilet she ate an English breakfast. Following this the American suffrage leader had an English secret, and attended to her mail. Mrs. Belmont then took a drive with her daughter, the Duchess of Marlborough, in an English motor car.

When Mrs. Belmont returned to her hotel she found a battalion of English and American newspaper men awaiting her. Mrs. Belmont promptly refused to see all except reporters from Lord Northcliffe's paper, the Daily Mail. The boycott was especially severe against the correspondents of American papers. Mrs. Belmont lunched with her Duchess daughter at another hotel, and later called upon Mrs. Emmeline Pankhurst in High Bridge, spending a half hour with the British militant leader.

Returning to her hotel Mrs. Belmont continued her "boycott" by having regulation English tea in the afternoon. After partaking of an English dinner last night Mrs. Belmont attended a meeting of the English suffragettes in Kingsway Hall, and finished the day by tipping an English porter at the hotel with an English half crown, thereby earning an English thanks.

The irony of the day's events came last night when an English reporter from the Daily Mail made the rounds of the American newspaper offices here, offering to sell for a sufficient consideration an exclusive interview with Mrs. Belmont which the English newspapers turned down as not being of sufficient interest. The representative of one American paper finally paid an exorbitant price for the interview.

Mrs. Belmont and Mrs. Carrie Chapman Cattell, of New York, occupied front seats on the platform at the meeting of the Women's Social and Political Union at Kingsway Hall last night to protest against the forcible feeding of imprisoned suffragettes. Neither of the American women spoke, but showed approval of the speeches by unstinted applause.

The Duchess of Marlborough, Mrs. Belmont's daughter, who was expected to be present, did not appear. At the close of the meeting Mrs. Belmont contributed \$50 to the war chest, which, by her request, was announced as "from America."

As a result of the extended activities of a number of conscientious citizens banded together as the Port Antonio Memorial association, assisted in a very large degree by the daughters of the American Revolution, five thousand dollars was voted yesterday in the Ohio legislature to the fund for purchasing and erecting a monument for this ancient fort and burying ground.

The clause providing the fund was inserted as an amendment in an appropriation bill that was before the state senate by the Hon. Daniel Mooney, representing the senatorial district. The plan was met the entire approval of all, for it was carried through nicely.

In the Ft. Amanda Cemetery there are buried 78 soldiers of the war of 1812, and it is thought one of the Revolutionary war. When Governor Co. made a visit to Lima a short time ago the matter was presented to him by the local organization through the agency of William Rusler. The amount stated at this time was \$25,000. The Governor responded that he felt the cause worthy, but feared the amount a little high. He agreed to help the matter.

AS FRIEND OF COURT  
HARLAN IS REFUSED  
REQUEST BY JUDGE

Chicago, April 30.—The petition of John Maynard Harlan, as a friend of the court, that the Cook County grand jury be instructed that the two election commissioners who signed the order for voting machines valued at \$1,000,000 were guilty of crime in so doing, was refused by Judge Burke today.

Charges of fraud in the purchase are being investigated by the grand jury and an investigation has been ordered also by the state legislature.

PETITION AGAINST  
SUNDAY CLOSING  
OF POST OFFICES

Washington, April 30.—The most voluminous petition ever received by the post office department was submitted today protesting against Sunday closing of post offices to the transient population of the United States.

The petition was so bulky that it could not be forwarded through the mails and was sent by express. It was neatly bound and weighed 2 1/2 pounds. Signatures of tens of thousands of people in all walks of life including those of the governors of Michigan, Wyoming, Colorado, Minnesota, Maine, Iowa, Delaware, and New Hampshire were affixed. It was urged by the petitioners, in behalf of the transient population of the United States, commercial travelers, those engaged in theatrical pursuits and others whose business interests make it compulsory for them to travel, that special provisions be made by the post office for the delivery of mail on Sunday, and that an order be issued, "to all postmasters to continue the delivery of all mail on Sunday both to hotels and theatres and that all employees of the post office be granted compensatory time off for any duty performed on Sunday."

RESPONSIBILITY OF  
APPROVAL OR VETO  
NOW RESTS WITH COX

Columbus, O., April 30.—The governor said today that he would welcome an opportunity to take the stump in a referendum campaign defending the workmen's compulsory compensation law, which capitalistic organization had threatened to precipitate. "I am ready for this fight," said he. "I'll make a statewide campaign to defeat their plans, and I have no fear of the result. The new law is the most pronounced humanitarian law enacted in years. It received the highest vote in the constitutional election and it is more popular now than it was then."

With the legislature out of the way, Governor Cox will be busy during the next few days going over the mass of bills which reached his office during the closing hours of the legislative session. He has something like 200 measures to consider. He will approve a large majority of them. One bill which is expected will be vetoed is that by Representative Kessler, of Adams county, which seeks to restore to citizenship the 1,500 or more residents of that county who were disfranchised by Judge A. Z. Blair for buying and selling votes.

Earthly Punishment.

Martin Green, "Prince of Reporters,"  
Recipient of Unusual Honor

Martin Green, one of the best known newspaper men in the United States, has been honored in a manner never before shown a working newspaper reporter in New York, perhaps in the United States. A dinner for him at Delmonico's, a dinner the equal of those given for former presidents and trust officials, has been arranged for him, and some of the great men of the nation who have met him will attend to tell what they think of him. For 25 years Green, who is yet a young man, has been a reporter and "free-write man," much of that time on the Evening World in New York. He has seen statesmen and politicians come and go, and has written pages about them. He is one of the most popular men in the business. Those who have had to attend political dinners and all kinds of banquets at which big and little men and many four-flushers were the recipients of honors, concluded to show "at they could do for a regular fellow."

AUTO AGENTS  
ALTER PLANS

McLeod and Barr Company  
Give Up Store Room but  
Keep Office.

MARINELLO SHOP  
TO MOVE QUARTERS

Will Locate at 113 West  
North Street, in the  
Harper Block.

Having reduced their stock of cars by recent sales, and having secured new quarters for their stock rooms, the McLeod and Barr Auto Sales company have given up the east side of their large double rear room in the Harper block on west North street. Hereafter, remaining with their offices and small display room in the west part of the same location, namely at 115 west North street, they will continue their agency. Two cars, a roadster and a touring car, representing each of the models of the Ford cars, will be on display there. The remainder of the large stock carried by this firm will be housed in the new Sweeney building on west Water street.

The east half of the room that was occupied by this agency will be partitioned off with a solid wall, making there a room of equal size with the one on the west. This east room will be occupied immediately upon the completion of the repairs by the Marinello shop, formerly located in the rear room of the North hotel building. They are forced to move by the making of repairs in the latter building, and the incorporation of their old quarters in the hotel accommodation. The new location will be of equal convenience, and will be especially equipped for their work.

YOUNGSTER WANTED  
TO SEE HORSES RUN

Because, he said, he wanted to see the horses run, Harold Fowler, aged 6, son of Harry Fowler, 545 south Central avenue, pulled the fire alarm box in front of the Fine street school building this afternoon. The south side department which made the run to the fire, found the boy standing by the box too frightened to run.

After being questioned by Chief Mack, the youngster was turned over to his mother who wasted no time in administering punishment.

GYMNASIUM FOR HENS.

Expert Declares It Increases Production 20 Per Cent.

St. Paul, Minn.—Hens should have a gymnasium, proper training and an occasional change of diet to break egg laying records, according to Samuel H. Mahan, a local poultry expert.

Mr. Mahan recently established in connection with his chicken coop a gymnasium where daily each hen is given two hours of exercise.

He declares that as a result of this training the average production of each hen has been increased in nine days from 65 to 85 per cent.

Pulls the Wrong Tooth.  
Chicago.—A tooth worth \$1,000. What is its value? These are two questions that will have to be answered by a jury in the municipal court when the case of Miss Madeline Henry against George W. Nevels, a dentist, is called for trial. Miss Henry filed suit charging that she went to the doctor's office and asked to have a wisdom tooth pulled. Instead the doctor pulled the wrong tooth, she alleges.

Winning the Greatest Things.  
It is flattering to our lower nature to be envied. But for the esteem that is worth having, one kindly action, one tender, considerate word, will do more than the fullest measure of glittering success. Hostility, pushing, grabbing, will win many rewards according to the statement of a few effort. But they will not win affection, they will not win tenderness and love.

## England Finally Shows Her Teeth To Suffragets

(Continued from First Page.)

There will be no issue of the official newspaper of the militant suffragettes tomorrow. Not content with arresting the two women editors, the police today raided the printing office and carried off all the type set up for tomorrow's number. The women workers in the office who escaped arrest assumed an indignant attitude but stood gazing forlornly at the doors and at the bare flagstaff from which the great purple, white and green flag had floated day and night for months. The women say the raid was expected and they had removed most of their valuable belongings to two empty houses they had in reserve in case of emergency.

Mr. O. H. Belmont made an exhaustive trip round the suffrage centers today. She reached the headquarters of the Women's Social and Political Union too late to be included among those arrested. When she arrived she found policemen in possession and decided that it was safer to look at the offices from the outside than to attempt to enter.

Mrs. Belmont has joined the International Suffrage Club of London, and during her journey has purchased many photographs of militant suffragettes and campaign posters for the adornment of her political headquarters in New York. She will start for Paris tomorrow and will invite Christabel Pankhurst to spend the summer with her in her villa at Deauville, on the French coast.

## OPERATION ON SKINNER.

Indianapolis, Ind., April 30.—Ola Skinner, the actor, who arrived here today to consult a local ear specialist, will undergo a mastoid operation at a local hospital tomorrow morning according to Dr. LaFayette Page, whom Mr. Skinner consulted.

## LOOKING FORWARD.

Washington, April 30.—President Wilson, according to the democratic house leaders has proposed a co-operative plan for conducting the congressional campaign of 1914, so as to have the national and congressional democratic committees work together. Development of the plan, it was said today, was the main reason for postponing last night the scheduled meeting of the democratic congressional committee of which Representative Lloyd of Missouri is the retiring chairman. A new chairman is to be selected and he is expected to be Representative Johnson, of Kentucky. Representative Finley, of South Carolina, who was a candidate has withdrawn. The committee will meet soon for re-organization.

## PURDY LAD PASSED AWAY FROM EFFECTS

Accidental Hanging of Last Friday  
Finally Resulted in Death of  
Youngster.

Remaining in an unconscious condition for a long interim, amply from the time of his accidental hanging while at play on last Friday, Jesse Purdy, nine-year-old son of Mr. and Mrs. Lige Purdy, of Spencer township, passed away from the effects of his terrible experience. The accident, an account of which appeared in The Times, resulted in the forming of blood clots on the brain, which brought about death. The boy died in convulsions. The funeral services will be held at the residence tomorrow afternoon at 1 o'clock.

## New Assistant Secretary of State, Succeeding Huntington Wilson

Former Governor John E. Osborne has been nominated for assistant secretary of state to succeed Huntington Wilson, who made that office during the Taft administration the most important in the department under its head. Governor Osborne was born in Westport, N. Y., 53 years ago. At the age of 16 he was apprenticed to a druggist in Vermont and later was graduated from the university of that state as a physician. He went west in search of a practice and settled at Rawlins, Wyo., where he was employed as a surgeon by the Union Pacific railroad. Later he engaged in raising sheep and became the largest sheep owner in the state. He has been a member of the state legislature, a mayor of his city, a delegate to several national democratic conventions, governor of his state, and in 1899 was the free silver candidate for United States senator.

## NAVY NEEDS MORE CADETS

Daniels Will Ask Congress to  
Extend 1903 Law.

WOULD KEEP ACADEMY FULL

Unless Statute Is Renewed Annapolis Will Have but 533 Students in 1917 and Cost of Graduates Will Increase, Says Secretary—To Revive Curriculum For First Year.

Annapolis, Md.—Secretary of the Navy Daniels announced that he would seek to have congress extend the provisions of the law of 1903 authorizing the appointment of two midshipmen to the Naval academy every four years by each senator, representative and delegate in congress. This law, expires this year, and unless it is extended the number of appointments to the academy will be cut in half and within four years the number of midshipmen will be reduced from 1,089 to 533. "The capacity of the Naval academy," said Secretary Daniels, "is sufficient without enlargement to furnish officers for the line and staff of the navy and marine corps in adequate numbers for many years to come, but if the number of appointments be reduced the relative cost of educating each midshipman will increase, while the existing shortage in the navy will grow rapidly worse. There is little likelihood of more graduates from the Naval academy than the government will require."

Secretary Daniels has approved a recommendation of the academy board of the Naval academy that for subjects in which the only examination comes at the end of the year the term work shall count three-fourths instead of two-thirds, reducing the examination accordingly. Under this arrangement

JOSEPHUS DANIELS, SECRETARY OF THE NAVY.

the work done during the term will hereafter count more in determining the scholastic standing than formerly. The effect of the revision of the curriculum on the first year's work has been shown by the decrease in the number of fourth class men dropped for deficiency in studies at the semi-annual examinations. Last year nearly 17 per cent of the fourth class were recommended to be dropped. This year only 13 per cent failed. In determining the term work the examination now counts only one-sixth in subjects in which monthly examinations are given.

The recent entrance examinations also showed an increase over the usual percentage in those who qualified for admission. Out of 133 examined in February 55 per cent passed, as against an average of about 41 per cent during the last six years. This increase, it is said, is not due to a difference in examination, but is due to a change in examination dates.

In order to limit the amount of expenditures of midshipmen for civilian clothing and haberdashery, as well as to prevent their running in debt, an order has been issued which forbids them from making purchases directly in Annapolis, but allows limited purchases from firms who send representatives to the academy. Local merchants have no objection to the order, as their payment is certain and facilities for taking orders are freely granted them.

The rudder is so large that a doorway was made in the lower part of it to admit workmen and enable them to work on a pin four feet long connecting the rudder with the ship.

The hundreds of friends of Mrs. Thomas A. McLaughlin who submitted to an operation performed by Dr. Rosenthal, the specialist from the Fort Wayne hospital, will be glad to know she is recovering nicely and that the operation will undoubtedly be the means of restoring her to good health. Mrs. McLaughlin is at Lima hospital and friends are remembering her most generously with beautiful spring flowers and many acts of kind attention.

## RAISING ALFALFA IN ILLINOIS

Charles E. Yarnall of McLean county, on the George S. Hanna place, has some remarkable results with alfalfa. He got a good stand on six acres by breaking the ground the last of July, disking it three times, harrowing and cross-harrowing two or three times, dragging twice, sowing 20 pounds per acre of seed broadcast, harrowing it in and rolling the ground. This was in 1905. The alfalfa grew about four inches high that fall and was not cut. In 1907, it yielded about two tons per acre, but in addition 150 pigs in 1906, the big returns began. Three cuttings of hay returned 2 1/2 tons per acre, but in addition 150 pigs were pastured on this alfalfa from the time of the first cutting until December. The pigs were bought when

Second Cutting of Alfalfa.

they weighed 45, 50 and 60 pounds, and when they were weighed in the middle of December they averaged 125 pounds. Counting a gain of 75 pounds per head and allowing \$100.00 for about 200 bushels of corn fed to the hogs, and figuring the pork at 5 cents per pound, these hogs returned \$462.00; the hay was worth \$185.00, total \$647.00 from six acres or \$107.83 per acre. Contrary to the results in many other cases this pasturing did not hurt the alfalfa and was repeated without harm the next year.

In 1909, this piece of alfalfa yielded 3 1/2 tons per acre in three cuttings and pastured 33 hogs from the time the alfalfa was four inches high in the spring until August 14, when 66 head were sold, and from then till frost it pastured the remaining 17

dence, and many more hogs. It starts this new delicate crop, Mr. Yarnall says, and hundreds of others are getting splendid results from it.

## CORNU ON ALFALFA.

"The cultivation and feeding of alfalfa mark the highest development of modern agriculture. Alfalfa is the preserver and the conservator of the homestead. It does not fall old age. It loves the sunshine, and the pockets of the thrifty housewife. It is the greatest mortgage ever yet discovered."

## ALFALFA IS MOST VALUABLE IN THE CORN BELT.

Because the Corn Belt has an abundance of starch and is short of protein.

## TWO NOTED AUTHORITIES ON ALFALFA

In speaking of his experience in the growing of alfalfa, the Hon. A. P. Grout of Winchester, Ill., one of the largest alfalfa growers in the state, has this to say:

"My success at first in growing alfalfa was not startling, but on the contrary I met with many discouragements. Had it not been for the dodges, (sheep and hogs) that seemed so load of it, and thrived so well on the small quantities I was able to furnish them, it is doubtful if I would have kept up the struggle. A knowledge of its wonderful feeding value gained by experience was the incentive that urged me on.

The time has come in my experience, and I believe in the experience of every alfalfa grower, when just as

knowledge of alfalfa, and even its cultivation and use by the mass of Illinois. To be instrumental in bringing into general use a plant which will add untold wealth, not only to the farm, but to every other branch of the state, is a most honorable and most deserving of honor than that usually accorded for any public service."

## Joe Wing Believes in Alfalfa.

Joseph E. Wing of Ohio, who has 150 acres of alfalfa, and who is one of the best known authorities on alfalfa in the United States, says:

"Alfalfa is a perennial cutting well drained soil from fire to five years with one cutting. It may be cut from three to five times a year and will yield in the region of

corn belt from three to six tons of hay per acre. The composition of alfalfa hay is such that it has about the same nutritive value as wheat bran, and may be substituted for wheat bran in the feed with good results. As a food for all classes of live stock it is unsurpassed. Every animal upon the farm loves alfalfa and thrives upon it. As a pasture plant for hogs it has no equal in the amount which animals will gain from an acre of it, as much as 600 pounds of pork per acre have been reported where hogs have grazed it. It is also the best hay pasture known, and it should be used as a pasture for sheep and cows, although one must observe care in pasturing it with these animals, since they may bleed."

S. army asking that he send a representative from Lima at the public meeting of the board of engineer officers ordered by the war department to investigate and report upon flood conditions in the valley of the Ohio river and in the drainage area of Lake Erie. The conference will be held in Cincinnati at the Sinton hotel, May 6. All parties interested are requested to be present at the hearing.

## FAMILY WOES OF BLOME, JR

Cause of Key Being Turned  
in Lock of the Lima  
Restaurant.

### SENIOR BLOME ASKS FOR A RECEIVER.

This Afternoon the Younger  
Blome Faces Worst of  
Three Charges.

Fighting through lower courts into the common pleas court the family affairs and domestic relations of A. B. Blome were further aired today when a patrolman was stationed in front of the Blome restaurant, 227 north Main street, and the door of the restaurant closed through an order issued by Judge Klunger.

The new chapter in the case was written late yesterday when Blome, Sr., brought suit in common pleas court asking that a receiver be appointed for the business operated jointly by the father and son.

With three suits pending against him, Blome this morning reiterated his declaration that the action of his father was nothing more than a plot to discredit him and to secure possession of his business properties. Like allegations are made by the father.

The trial of the first case against Blome is set for this afternoon when he and Edith Barj whom he claims as his wife will be arraigned before Magistrate Holmes on a charge that they have been living in unlawful relation.

In his petition filed yesterday the father asks that a receiver be appointed to conduct the business and asks that the partnership be dissolved and the assets distributed. He declares that his son is inattentive to business details and that he refuses to make a reasonable settlement. He further says that while the son insists on dissolution he refuses to pay his father an adequate share but asks an exorbitant sum for his interests.

### AMERICANS FORCED BY GREEDY MEX. TO PAY LARGE SUMS

Washington, April 30.—Mexican constitutionalists at San Dimas have forced Americans there to pay a sum of 10,000 Mexican dollars and confiscated their arms. Official reports today from Magazan say that great unrest prevails among American residents there as the Huerta forces are said to be insufficient to protect property.

Porten merchants in Ciudad Porfirio Diaz and Piedras Negras are alarmed over the proclamation by Governor Carranza, chief of the state troops, authorizing an interior debt of 5,000,000 pesos to be guaranteed by the constitutionalists. The proclamation says that persons detaining any of the money will be imprisoned.

## NEWS OF POLICE COURT

"In again, out again, in again" might explain the movements of Joe Marlett and James Ivy who appeared before Mayor Shook again this morning on a charge of drunkenness.

"I believe I have seen both of you before," said the mayor. Both admitted it possibly was true. "Yesterday morning, wasn't it?" asked the mayor. The pair again were forced to admit the truth. "What's the reason?" demanded his honor.

"Well, 'e see, judge," began Marlett, "we had a dollar— Well, I'll relieve you of a little bit of it. Five and costs."

Michael McNamara, 117 east Grand avenue, who was brought to the police station by Lige Cary was fined one dollar and costs. McNamara, it is said, drove off with a horse and buggy belonging to Cary after driving the rig about the city. He returned just as Cary was beginning a search for him.

McNamara admitted intoxication this morning. Prosecution on charges of horse stealing were dropped when the boy's mother paid his fine and saved him from the stone pile.

After the failure yesterday evening of a Montgomery county sheriff to identify him as the negro wanted for an assault on a young white girl at Dayton, Gilbert Cook 53, of Sidney, was released by the local authorities. The Dayton officer declared Cook resembled Taylor, the es-

caped negro, in almost every particular but was minus a few identification marks attributed to Taylor. Cook walked into the police station Monday night and asked for lodging. On account of his description he was held pending the arrival of the Dayton official.

That the month of April was the most quiet month of the year, 1912 is evidently in the monthly report of fines collected from offenders in the municipal court. The total amount collected as fines and costs for prosecution of city cases amounts to \$451.65, as contrasted with \$1,656 collected in January and about \$1,200 collected during both March and February.

Fines collected from state cases total an even \$400. Reports show that \$125 was collected from licenses issued during the month to peddlers, moving picture shows and so forth. A considerable decrease is noticeable in these collections over collections made during the three months preceding.

Police today are searching for the sneak thief who yesterday entered the room of H. Nungesser, 426 1-2 south Main street, where he boards with the family of Bert Shelley. When Nungesser arrived home from work yesterday evening to don a suit of clothes he had purchased the day previous, he found the suit case in which he had placed his clothes, missing. A search showed that in addition to the clothes, the thief had got away with several other articles of value and about \$19 in cash.

statistics has just issued a report on retail prices from 1886 to 1912. The lowest cost was reached in each of the geographical divisions and in the United States as a whole in 1896. From that date to 1912 the total increase in the cost of living per year for a workman's family, by geographical divisions, was:

North Atlantic, 166, South Atlantic, 152; North Central, 137; South Central, 136, and Western 152.

The approximate cost of a year's food supply for an average workman's family at average prices of each year, by geographical divisions for 1890, 1896 (the low year) and 1912, was:

Divisions 1890 1896 1912

North Atlantic \$319 \$300 \$466

South Atlantic \$274 \$265 \$417

North Central \$299 \$276 \$463

South Central \$268 \$255 \$441

Western \$309 \$277 \$429

### ANNUAL MEETING OF Y. M. C. A. MEMBERS

"What do you think the Lima Y. M. C. A. need most?" a question that the members of the Lima Association will discuss at their annual meeting tonight at 7:30. The particular business of the meeting is the election of six directors for three years and one for one year to fill vacancy made by the removal of L. H. Kibby.

The nominees are: A. A. Gramm, W. J. McLaughlin, G. A. Horrett, R. J. Plate, M. U. Basinger, Dr. W. H. Parent and T. P. Riddle to fill vacancy.

The first six men named have served on the board and have been nominated by the nominating committee to succeed themselves. Reports of the year's work in the different departments will be made and slides of some of the new and modern Association buildings will be thrown upon the screen and described by the secretary. The question of the international convention which meets at Cincinnati, May 15 to 18, and a Lima delegation which will represent the Association will also be discussed. All members of the Association will be present if they are at all interested in the progress of the work and future needs and possibilities. A general discussion of the question stated above cannot fail to bring out helpful suggestions, at any rate it should serve to get at the consensus of opinion among the members.
